# Dev Vortex

in LinkedIn  |  +234 8112083243  |  M qudusbello51@gmail.com  |  ⌂ GitHub

## Skills

- JavaScript | TypeScript | React  | Redux | Next.js | Supabase | Git
- Restful APIs, JSON handling, Serverless functions
- Responsive Design ,UI/UX best practices ,Accessibility

## Experience

**Frontend Developer**                **Cypherdevs Tech.**                *Kwara, Ilorin, Nigeria*        **11/2023 – 04/2024**

- Collaborated with UI/UX designers to implement responsive and accessible web interfaces using **React.js** and **TailwindCss**
- Built reusable and modular frontend components to streamline development across multiple projects.
- Consumed and integrated **RESTful APIs** for dynamic data rendering and real-time interactions.
- Utilized **Git** and **GitHub** for version control and collaborative development within a team**.**
- Optimized performance by identifying rendering bottlenecks using **React DevTools**.
- Practice **mobile-first design** and cross-browser compatibility to ensure consistent user experience.
- Applied **basic testing** practices using tools like **Jest** and **React Testing Library.**
- Improved SEO, accessibility, and page load speed based on project requirements and audits.
- Delivered features ahead of schedule for a logistics startup's web platform, enabling early user testing and market validation.
- Helped reduced frontend development time by 30% across projects by introducing a shared component library.

**Coding Teacher**                **Al-Mushin Schools**                *Kwara, Ilorin ,Nigeria*        **09/2024 – 03/2025**

- Taught foundational programming concepts (HTML, CSS, JavaScript) to basic and secondary school students through hands-on projects and interactive lessons under the supervision of Cypherdevs Technologies C-2-C (Classroom to Classroom) program's committee.

## Education

**Bachelor of Science**                **University of Ilorin**                *Kwara state, Nigeria*        **01/2021 - Current**

- Major in Information Technology

## Projects

- **JAEGA RESTO:** Developed a full-featured restaurant admin dashboard using **React**, **Supabase**, **React Query** and **TailwindCSS (2024)**
- **JOB LISTING APP:** A clean job listing UI inspired by real-world job boards. Built with React, responsive layout using TailwindCSS, and filters/search functionality for user experience. **(2023)**
- **TODO APP:** A lightweight task manager with dark/light mode toggle, toast notifications, and status filtering. Created using HTML, CSS and JavaScript as my final project at Cypherdevs Technologies Bootcamp. **(2023)**

## Mentorship

- **Peer Mentoring:** Offered one-on-one support to fellow students in JavaScript, React and web development. Helped with debugging , code reviews , and preparing for technical assessments **(2024- Present)**

## Others

- **Cypherdevs Certificate – Frontend Development**: Completed the fundamentals of Frontend Development course at Cypherdevs Technologies, covering JavaScript, React, Git, CSS frameworks and project based learning **(2022)**
